Subject: VB/I-70 Outreach Update

Hi everybody. I just thought I would put together a summary of our outreach activities and dates so we are all on the same page. I hope I've already discussed all of this with all of you, but in case I missed someone or something, this might help.

Briefing with Mayor Hancock's staffer Evan Dreyer at 3:00 today

Briefing Denver City Councilman Albus Brooks Friday at 3:00. (Haven't yet heard back from Councilwoman Montero)

Extended email invites to meet with congressional staffers (Bennett, Udall, DeGette) and state legislators but haven't heard back yet.

## Extended email invites and/or phoned various community leaders thus far including:

### Cole Neighborhood:

Sandy Douglas - she is very helpful and active in her neighborhood. She has agreed to help go door-to-door if necessary

Loralie Cole - president of the Cole Neighborhood Association - I haven't heard back from her yet, but I expect to soon

#### Clayton Neighborhood

Joan Hooker - she will not participate due to various health problems, but she does know her neighbors and others in the area well, and will put in a good word for our work

Anthony Thomas - He now is involved in a neighborhood assoc. that comprises the northern half of Clayton. I sent him and update about what we're doing via email as well. He might be willing to call some of the property owners, but probably can't walk door-to-door.

April Crawford - She is president of the neighborhood assoc. for mainly the southern half of Clayton. I have not heard back yet from her

## Swansea/Elyria

Cynthia and Crystal at Focus Points Resource Center. I sent them emails with info. about the site and plan on following up...

There are a few others on my list of community leaders to contact. If you have any suggestions, please let me know. I so far have not heard any criticisms about what we're doing, but it's early!

I will keep all of you informed as we set up meeting with any community leaders and you are welcome, of course, to join.

Finally, we are planning to host an informational session on Thursday June 28 from 5-7 pm at Bruce Randolph School. We are advertising it in the letters we are sending to the property owners. We may also hand out a flyer with the meeting information during our door-to-door efforts earlier that week. We look forward to planning out the details of these efforts with you as we go forward - we're trying to get the property owner letters out the door first. The mailing, by the way, will include a letter, access agreement, site fact sheet, and information about lead and arsenic, all in Spanish and English. Thank you to everyone for taking the time to review. I'll send out a final copy of all of the above, so you have it.

I think that's all for now. Please let me know if I am missing something or if you have suggestions. I will keep you updated if any further briefings are planned.

Talk to you all soon,
